

SV

Distinctive SV is a spherical digitally surfaced lens for single vision wearers.

d.istinctive

SV

So many ways to see better.

SEE MORE.
DO MORE.

Distinctive SV is intended for both kids and adults under 40 years old, who are either near-sighted, far-sighted or just want protection against harmful blue light and UV rays.

TECHNOLOGY

Distinctive SV includes the Digital Technology™ from Essilor that is an advanced technology to offer a customized lens.

CONSUMER BENEFITS

The Distinctive SV lens is a Rx spherical lens for single vision wearers.

It is tailored to each wearer's visual needs and offers good visual comfort.

DISTINCTIVE SV IS AVAILABLE IN THE THREE ESSILOR COLLECTIONS
